

Allergy Skin Testing

Susan Raschal DO
Covenant Allergy & Asthma Care
Chattanooga, TN

Objectives

1. Upon completion of this session, participants should be able to recognize a variety of skin testing techniques and how to perform them.
2. Upon completion of this session, participants should be able to know the difference between a positive and negative IgE mediated skin test and how to interpret the results.
3. Upon completion of this session, participants should be able to know which ingestants, inhalants and contactants are IgE mediated and will benefit from skin testing.
