# Accessing UpToDate

(For Adjuncts and Residents)

UpToDate is an evidence-based resource designed to help medical professionals make clinical decisions at the point of care. Clinical adjuncts have access to UpToDate through the LMU Library.
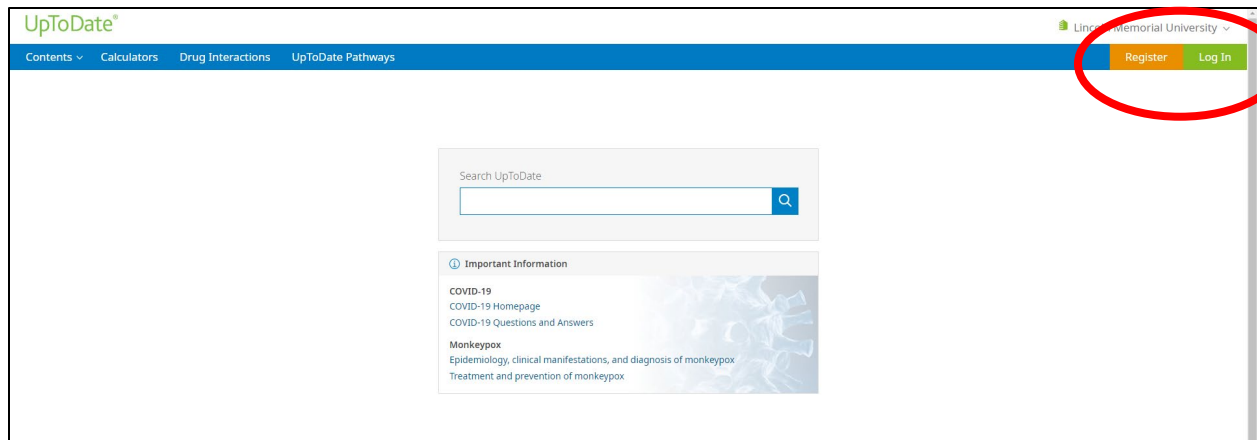

Clinical adjuncts must access UpToDate through a proxy link. By accessing UpToDate through this proxy link, you agree to keep the link confidential and to refrain from forwarding these instructions to another party.

Upon clicking the link, you will be prompted for your LMU credentials. Do not use the "@lmunet.edu" extension. Clinical adjuncts who do not know their LMU credentials should contact the Rotations Manager, Anita Sutton, for assistance.

This will redirect you to UpToDate. You can begin using UpToDate immediately. To download the mobile app and access additional features (i.e. CME/CE/CPD credits), log into or register for an UpToDate account. These credentials are unique from your LMU username.

The mobile app requires a verification of your account every 90 days to ensure you are still affiliated with Lincoln Memorial University. To reverify your credentials, access UpToDate via the proxy link and log in to your UpToDate account. You will receive a message upon log in confirming that your remote access has been extended. Sign in via the proxy link once every 90 days to maintain your remote access.

If you have any questions about UpToDate, contact the library or one of our Medical Librarians for assistance.
