Best Bets!

AccessMedicine    **Best Bet** 

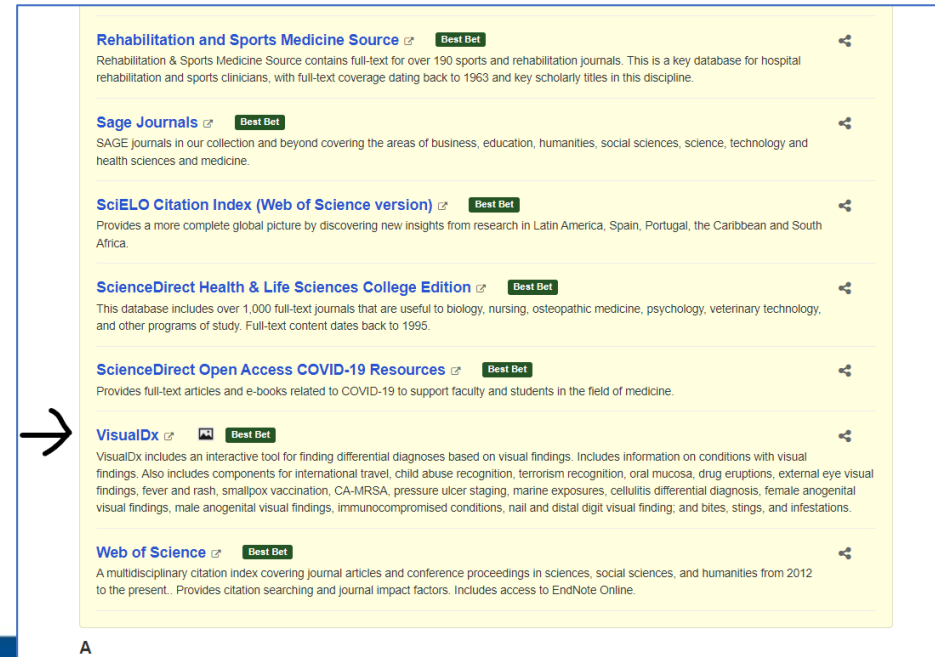

AccessMedicine from McGraw-Hill provides access to more than 60 medical titles, including the Current Medical Diagnosis & Treatment series, Tintinalli's emergency medicine text, and Goodman & Gilman's pharmacology text. Also includes updated content, images and illustrations, interactive self-assessments, videos, audio files, board review practice questions, drug information, diagnostic tests, guidelines, quick answers, case files, patient education, clerkship materials, and a comprehensive search platform. Users are able to view from and download content to a mobile device.

AccessMedicine Case Files  **Best Bet** 

AccessMedicine's Case Files® Collection from McGraw-Hill Education offers the best-selling Case Files® content in an interactive format. Updated regularly, this comprehensive case collection helps students learn and apply basic science and clinical medicine concepts in the context of realistic patient cases. The Case Files® Collection can help students at all levels excel in coursework and in clinical rotations; and allow faculty to include clinical cases into their digital curricula.

AccessPhysiotherapy  **Best Bet** 

AccessPhysiotherapy from McGraw-Hill Medical covers the in-depth study, instruction, and practice of physical therapy. Updated regularly, this

Rehabilitation and Sports Medicine Source  **Best Bet** 

Rehabilitation & Sports Medicine Source contains full-text for over 190 sports and rehabilitation journals. This is a key database for hospital rehabilitation and sports clinicians, with full-text coverage dating back to 1963 and key scholarly titles in this discipline.

Sage Journals  **Best Bet** 

SAGE journals in our collection and beyond covering the areas of business, education, humanities, social sciences, science, technology and health sciences and medicine.

SciELO Citation Index (Web of Science version)  **Best Bet** 

Provides a more complete global picture by discovering new insights from research in Latin America, Spain, Portugal, the Caribbean and South Africa.

ScienceDirect Health & Life Sciences College Edition  **Best Bet** 

This database includes over 1,000 full-text journals that are useful to biology, nursing, osteopathic medicine, psychology, veterinary technology, and other programs of study. Full-text content dates back to 1995.

ScienceDirect Open Access COVID-19 Resources  **Best Bet** 

Provides full-text articles and e-books related to COVID-19 to support faculty and students in the field of medicine.

VisualDx   **Best Bet** 

VisualDx includes an interactive tool for finding differential diagnoses based on visual findings. Includes information on conditions with visual findings. Also includes components for international travel, child abuse recognition, terrorism recognition, oral mucosa, drug eruptions, external eye visual findings, fever and rash, smallpox vaccination, CA-MRSA, pressure ulcer staging, marine exposures, cellulitis differential diagnosis, female anogenital visual findings, male anogenital visual findings, immunocompromised conditions, nail and distal digit visual finding, and bites, stings, and infestations.

Web of Science  **Best Bet** 

A multidisciplinary citation index covering journal articles and conference proceedings in sciences, social sciences, and humanities from 2012 to the present. Provides citation searching and journal impact factors. Includes access to EndNote Online.

A

AccessMedicine

- McGraw-Hill product with clinical resources from texts, to infographics, cases, multimedia, etc.
- How to use:
 - Point-of-care reference – texts, drug reference
 - Student assignments – infographics, videos, cases, multimedia
 - Group teaching
- There's an app that allows you to track what you've reviewed and access all the resources from your devices.
 - Create a login from the website, download the app, login.
 - Reauthenticate the app login every 90 days

Review AccessMedicine Site

UpToDate

- History
 - UpToDate was founded in 1992 by nephrologists Burton “Bud” Rose, MD and Joseph Rush, MD
- Purpose and Importance
 - A clinical decision support system designed to help healthcare professionals make evidence-based decisions quickly.
 - Provides reliable, up-to-date medical information, saving valuable time for busy clinicians.
 - Currently used by over two million clinicians and 44,000 institutions across more than 190 countries. It is updated continuously with users accessing over 54 million topics per month across 25 specialties.

UpToDate

Key Features and Benefits

- Evidence-Based Clinical Information
 - Peer-reviewed, trustworthy content
- Comprehensive Coverage
 - Over 11,600 topics in 25 specialties
- Regular Updates
 - Latest research and guidelines
- User-Friendly Interface
 - Quick and easy access to information
- Benefit for Busy Clinicians:
 - Saves time by providing a single, reliable source of information

UpToDate

Practical Uses

- Diagnosis Support
 - Comprehensive information and tools
- Treatment Recommendations
 - Evidence-based options tailored to patients
- Patient Education Materials
 - Resources to enhance patient understanding
- CME Credits
 - Earn credits while using UpToDate
- Benefit for Busy Clinicians:
 - Streamlines clinical workflows and enhances patient care
 - Supports professional development efficiently

UpToDate

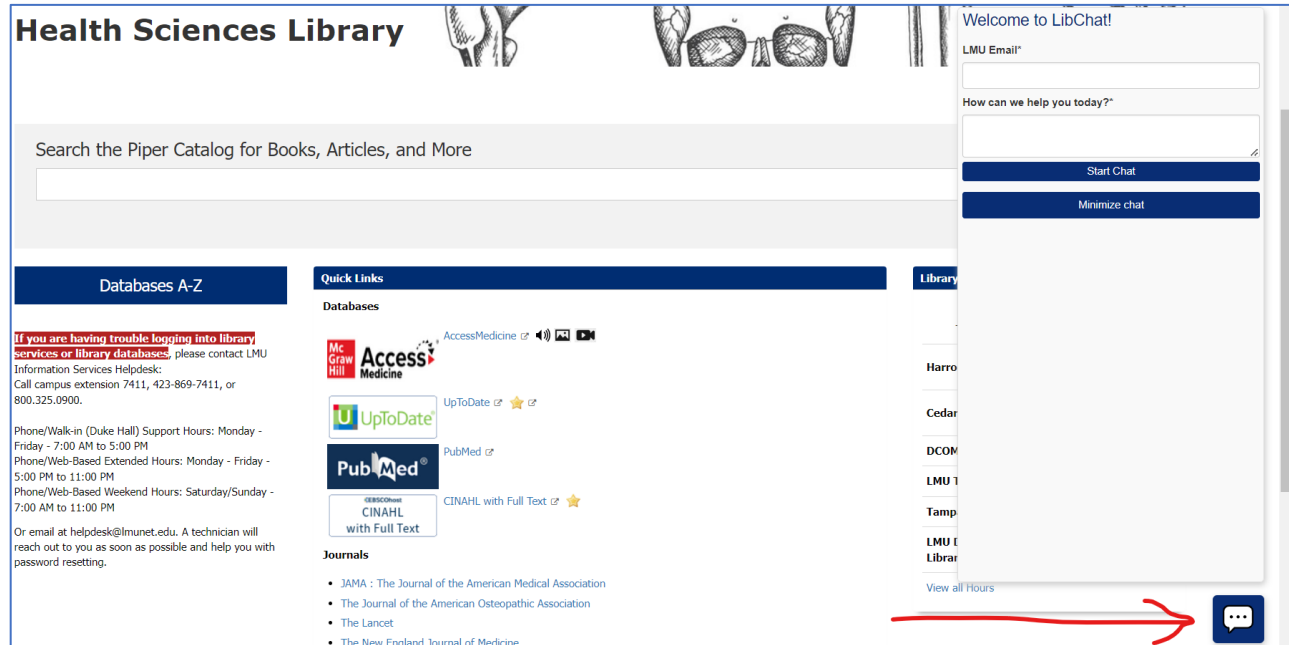

Accessibility and Integration

- Multi-Platform Access
 - Desktop, mobile app, EHR integration
- Offline Access
 - Download content for offline use
- EHR Integration
 - Supports workflow efficiency
- Benefit for Busy Clinicians:
 - Access crucial information anytime, anywhere
 - Smooth integration into existing workflows

Questions? Ask a Librarian!

The screenshot shows the Health Sciences Library website. At the top, there's a search bar labeled "Search the Piper Catalog for Books, Articles, and More". Below this, there are sections for "Databases A-Z", "Quick Links", and "Library". The "Quick Links" section includes links to "AccessMedicine", "UpToDate", "PubMed", and "CINAHL with Full Text". The "Library" section lists "Harro", "Cedar", "DCOM", "LMU", "Tamp", and "LMU". A LibChat window is open on the right side, titled "Welcome to LibChat!". It has a text input field for "LMU Email*", a text input field for "How can we help you today?", and two buttons: "Start Chat" and "Minimize chat". A red arrow points to the LibChat window.
